gross sales and promotional material, and each time anyone asks you about your ebook.

An effective approach for figuring out a price is to ship out a survey to your current customers. If these clients have already purchased an book from you, ask for their opinion in terms of price. Do that by creating a sales web page for the new e-book, but do not embody a worth on that page. Another technique is to check out costs by creating a number of duplicate sales pages with totally different prices on every page. Be sure that your gross sales copy is exactly the identical on every page, and consists of your selling-handle sentence. Then figure out for each web page the conversion ratio between visitors to your site and gross sales of your book. It will inform you what your optimum price is.

In the end, when you've written a e-book that solves a drawback or presents a new approach, your guide will bring in each site visitors and profits.
